¹ *In the Matter of Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Culling Systems*, Order, CC Docket 94-102, para. 24 (rel. June 28, 2002) (Commission requiring that quarter reports continue for carriers seeking additional time).

CHOICE WIRELESS, LC
TTY STATUS REPORT
January 15, 2003

Choice Wireless, LC ("Choice Wireless") filed a Petition for Waiver of the TTY requirements on June 21, 2002 ("Petition"). The Petition addressed the status of Choice Wireless' efforts to comply with the TTY requirements and requested extension of the deadline until December 31, 2003. The Petition remains pending before the Commission.

In its Petition, Choice Wireless reported, as part of the basis for its request, that its PCS vendor, Airnet, currently did not have a TTY technical solution generally available and that the vendor anticipated having a solution generally available by the fourth quarter 2002. In December, Airnet informed Choice Wireless that the vendor had not yet received an order for the software it intends to use for TTY compliance, thus the software has yet to be tested. Choice Wireless understands that the quote Airnet provided to Choice Wireless to implement the software once it has been tested remains above \$368,000. No other developments have occurred. Accordingly, Choice Wireless remains unable to comply with the TTY requirements at this time.

Respectfully Submitted,

Alan Rohmer
Chief Financial Officer
